OUR VALUES

Pace Technologies has always been a valued driven organization. The four core values that ground the way we conduct our business undertakings are:

Team Work

We believe in fostering an engaging and inclusive workplace; with continuous learning and building relationships based on trust and mutual respect.

Integrity

We will be honest, fair, transparent and ethical in the way of doing our business.

Commitment

We deliver our products with committed quality and time consistently while remaining faithful to safe working conditions.

Responsibility

We take responsibility of incorporating environmental and social norms in our business to ensure that a part of our accomplishments goes back to the society.

OUR VISION & MISSION

To be one of the Leading Manufacturer & Exporter for Motorcycle Sprockets & Motorcycle Chain Kits, & various precision machined & sheet metal components by providing OEM quality product at very competitive prices.

We **PACE TECHNOLOGIES** is professionally managed, service oriented company that strives to exceed customer's expectations and can provide custom machining and fabrication as well as Contract Manufacturing, whether it is a single component one time or thousands of items extending over many years. **PACE TECHNOLOGIES** should be your choice for Machined Components, Automotive Parts & Industrial Spares. We employ skilled workforce to cater to each and every customer with quality product & time bound deliveries.

Pace Technologies was founded in year 2011 to provide Job Work support to Tier-1 suppliers & major Automotive OEM's. From then the company has steadily grown in size and capabilities and now manufactures a variety of parts for various Industries & Automotive Sector.

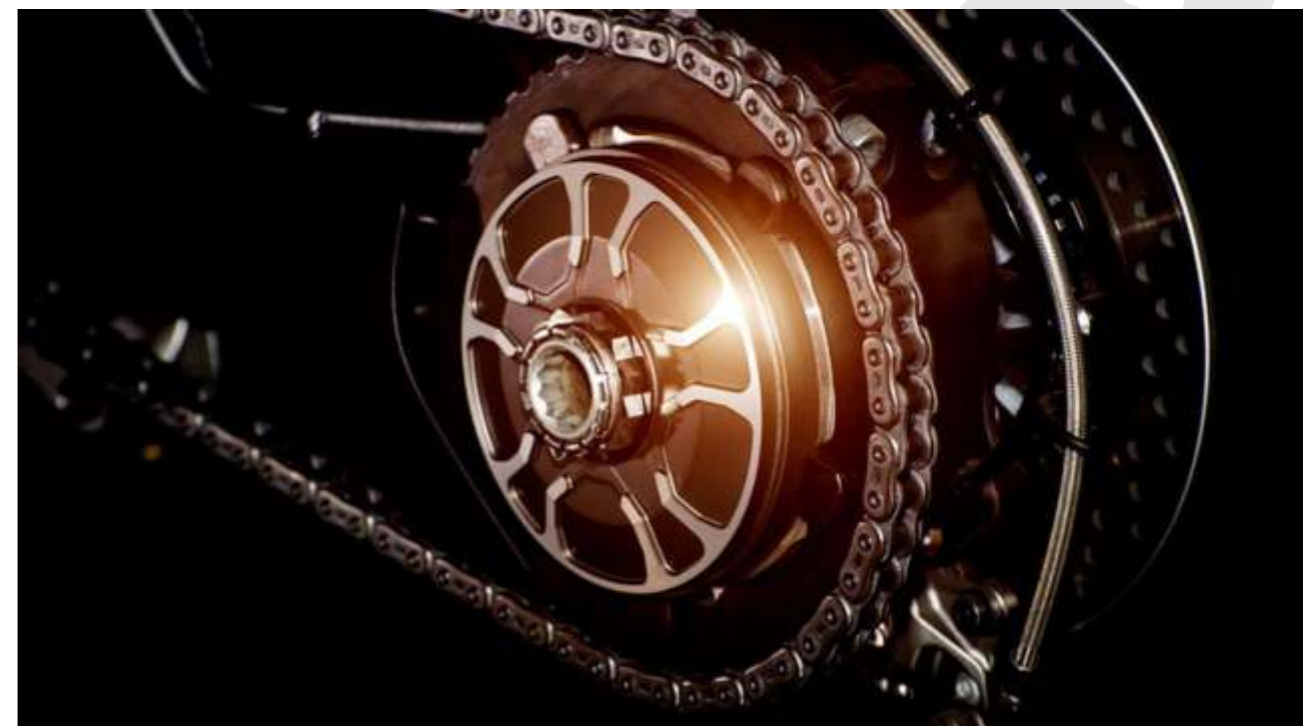

Pace Technologies has **two facilities**, one at **RIICO Industrial Area, Karoli, Bhiwadi, Rajasthan with 25000 sq. feet area** and the other at **IMT, Manesar, Gurugram, Haryana with 4000 sq. feet area** for catering the demand of various precision machined & sheet metal components and Automotive Spare Parts.

Our Manufacturing facilities are equipped with Modern Machinery like **CNC Turning Centre, VMC's, Gear Hobbing, Gear Shaper, Induction Hardening, Tempering Furnaces, Power Presses, Hydraulic Presses, Projection Welding, Threading Rolling Machines, Tapping & Drill Machines and other conventional Machinery.** Apart of in-house facilities, we have a cluster of qualified Vendors on whom we can bank upon to cater to any need of our valued customers; may it be related to any type of manufacturing Process from Aluminum casting, Forging, Rubber Moldings, Plastic Moldings etc.

LEADING THE WAY TO FUTURE

At PACE TECHNOLOGIES we continuously expand our capabilities and resources to meet the changing requirements of the Customers and the Market. Year 2016 was our starting point to foray into new segment of manufacturing Motorcycle Sprockets & Motorcycle Chain Kits, from than to now we have developed various models of Sprockets & chains kits covering almost all motorcycle models & even providing prototyping facility to future EV vehicles.
